5. Mayoral Minute

5.1 Mayoral Minute - Upgrade of Electricity Transmission Lines3

Chris Berry
GENERAL MANAGER

5.1 MAYORAL MINUTE - UPGRADE OF ELECTRICITY TRANSMISSION LINES

SUMMARY

To bring to the attention of Council concerns raised in relation to the upgrade of electricity transmission lines associated with Snowy Hydro 2.

RECOMMENDATION

That as a matter of urgency Council write to Transgrid requesting a presentation on the route option(s) for the electricity transmission line upgrades associated with Snowy Hydro 2 and details on the consultation process with the Yass Valley community

REPORT

In October 2019 Transgrid made a presentation to a Councillor Workshop on the upgraded of the electricity transmission lines needed to support Snowy Hydro 2.

At the time there were several design options but no specific route was identified.

It now appears that a route has been selected and some local landowners have raised concerns with compensation associated with the upgraded transmission line.

It is recommended that a meeting with Transgrid be organised for an update on the route selection and the community consultation process being undertaken.
